

OneSource is available to provide essential support, regardless of the management plan you and your physician choose. OneSource is a complimentary program offered by Alexion that is staffed by nurse case managers, who are registered nurses with clinical knowledge and funding expertise.

OneSource nurse case managers provide ongoing support in the following areas:

- **Education:** Collaborating with your healthcare team to answer questions and provide educational materials related to your disease
- **Coverage issues and funding options:** Assisting patients and practices with insurance coverage questions and research funding options
- **Management support:** Assisting with solutions for balancing all aspects of disease management when faced with major life challenges

In order to participate in OneSource and receive these patient services, OneSource needs to receive, use, and share your personal health information. In this Form, we are asking you to agree to let your healthcare providers, health plan, or health insurers release your health information (sometimes called "Protected Health Information" or "PHI") to OneSource and to allow OneSource and its agents and designees to use and share your PHI.

The PHI we need includes medical records regarding your medical condition and treatment, information about how well you are able to manage your treatment plan, information about your insurance coverage and benefits, and identifying information about you (including your name, address, date of birth, and Social Security number). OneSource will only use the PHI (provided by you or third parties) in the ways described in this Form or as otherwise permitted by law.

You do not have to sign this Form and, if you choose not to sign it, your ability to obtain treatment from your healthcare providers and your eligibility for benefits under your health plan will not be affected. However, if you do not sign this Form, OneSource may not be able to provide you with the services listed above.

To enroll in the OneSource program for personalized support, please read the information on the back page and fill out, sign, and date the Form. Please read this Form carefully and contact OneSource if you have any questions.
